

**PROCESS FOR THE OXIDATIVE PURIFICATION OF TEREPHTHALIC  
ACID**

**ABSTRACT OF THE DISCLOSURE**

5

Disclosed is a process to produce a purified carboxylic acid slurry.

The process comprises removing impurities from a crystallized product in a solid liquid displacement zone to form the purified carboxylic acid slurry.

The process produces purified carboxylic acid slurry having good color and

10 low impurity levels without the use of purification steps like hydrogenation or an impurity removal process.
